

PRODUCTS

Pressure Valve

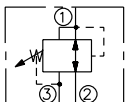

Relief Valve

up to 350bar
114 lpm

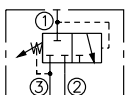

Reducing Valve

up to 240bar
56 lpm

Sequence Valve

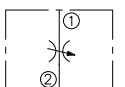

up to 240bar
30 lpm

Flow Control Valve

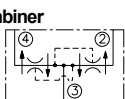

Needle Valves

up to 240bar
130 lpm

Needle Divider/Combiner Heavy Duty

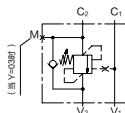

up to 350bar
91 lpm

Counterbalance Valves

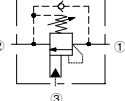

Counterbalance Valves

up to 350bar
60 lpm

Counterbalance Valves

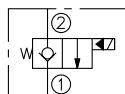

up to 350bar
240 lpm

Solenoid Valve

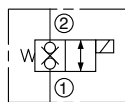

Spool, 2-Way

up to 210bar
151 lpm

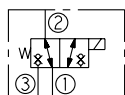

Bi-Directional Blocking

up to 210bar
114 lpm

Spool, 3-Way

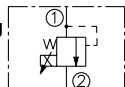

up to 240bar
25 lpm

Proportional Valve

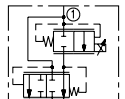

Reducing/Relieving

up to 240bar
100 lpm

Proportional Flow

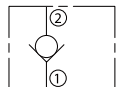

up to 240bar
91 lpm

Check Valves

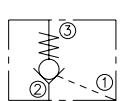

Check Valves

up to 240bar
380 lpm

Pilot Operated

up to 240bar
30 lpm

COMPANY PROFILE

Zhejiang Huayi Precision Machinery Co.,Ltd was established in last century.which Belongs to DunAn Holding Group(Top 500 Enterprises in China)

We have been focused on the design and manufacture of precision metal parts since many years,accumulating long-term experience in the valve, used in air condition valve, industrial weldingtorch and high purity gases.As we know hydraulic valve is not only with high precision, but also needs sustained improvement and verification through many tests. Therefore, wehave acquired many high precision machining toolsand testing equipments. In order to ensure stable quality, all precision machining processare controlled by ourselves,Each employee takes work very seriously.

All new products have to pass through tests of proof pressure, burstpressure, pressure drop, pressure holding, transient response characteristics, antipoll ution,environment(-40 ℃ ~80 ℃). Each type of valve passed over one million cycles lifetests under 1.2 times of rated pressure. All products haveto pass 100% strict inspection before delivery. Theoil cleanliness of our test beds is periodically reviewedand always maintained at NAS6.

Zhejiang Huayi Machinery Holding Co.,Ltd

Add: 689 Jiefang Road,Diankou Industry Zone.

Zhuji City, Zhejiang Province,China.
